# Lokki design

*"We create a stimulating environment inspired by the colorful world of nature."*

3D visualisation helps to show the best place for decorations.

Thanks to the wide range of themes we are able to create an infinite number of original worlds on your walls.

***Eva Sýkorová***

Artist and Chief Brand Designer

I like to be surrounded by nature.

The joy of nature inspires my imagination  
to bring new ideas for characters and themes.

My task in LOKKI is to create a unique style  
and introduce a warm blend of colour.

***Petr Švec***

Product Designer and Engineer

I like precision and details.

I live my life by the words „There is power in simplicity.“

My work in LOKKI is to implement elegant forms  
and smart technical solutions.

... a touch of nature

# Concept

## Lokki concept

### Materials

LOKKI products are made of the best quality materials based on wood, mainly MDF fibreboard, birch plywood, wood, and laminated boards, in a wide range of wood decors and colours.

### Production

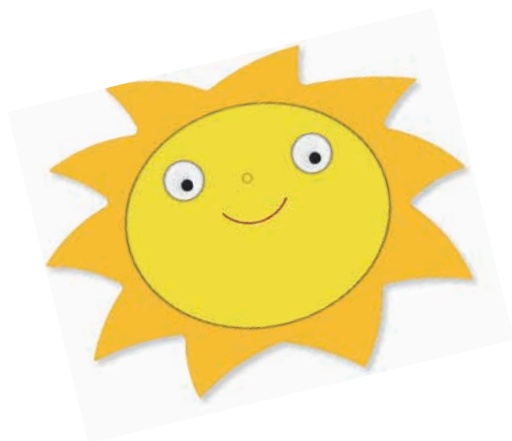

We use the most modern manufacturing methods of wooden board cutting operation. The CNC machines guarantee precision and the best quality for our products. Subsequently, the individual components are formed by hand to get the final shape.

### Assembly

Originality and precise processing of our products is guaranteed by manual paint application and spraying.

## Safety

All used materials and manufacturing comply with Hygiene and Safety Standards required by European Union.

 Made in Czech Republic

## Certificate

Playing and didactic toys are EN-71 certified.

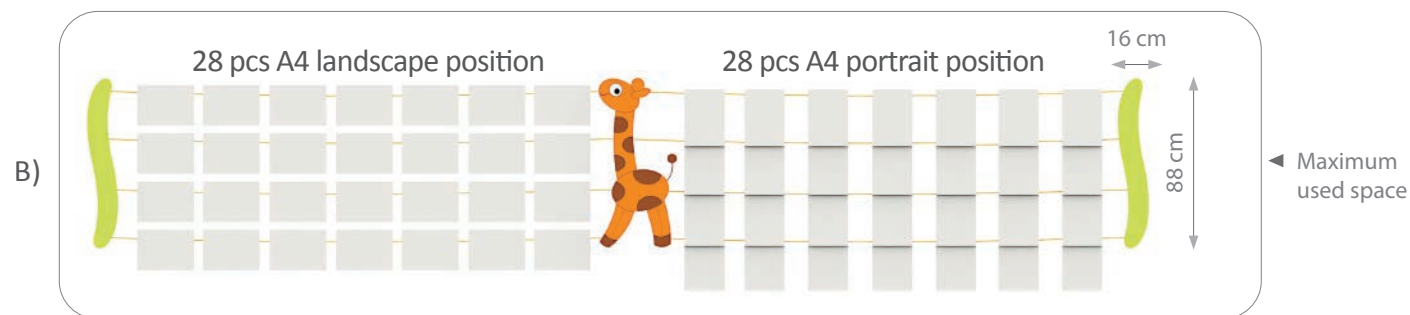

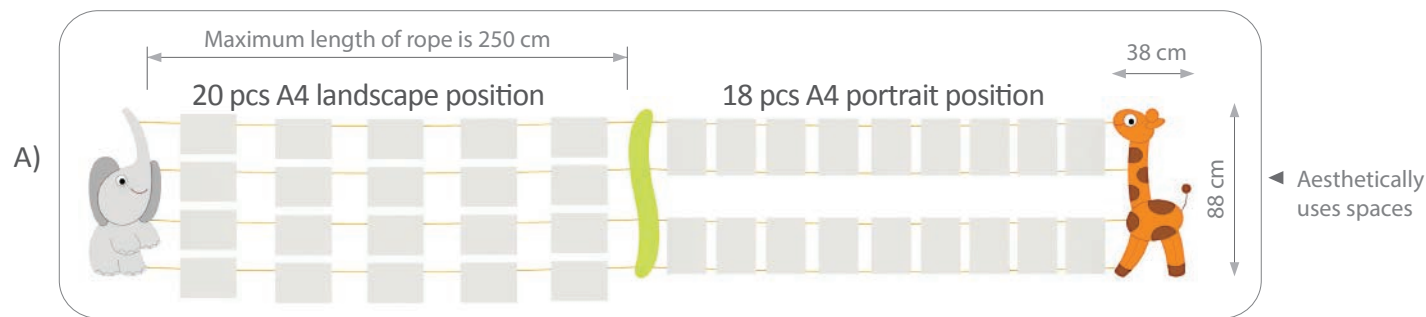

## *Rope Boards*

*Hang your pictures  
on the merry strings!*

### *Rope boards can be combined according to the width of the wall.*

Do you need to fill in spaces such as long hallways? An ideal option in this case are rope boards type **A** and **B** - they allow for the placement of up to 56 pieces of A4 images. The practical central anchor prevents the rope from sagging.

Type **C** is suitable for the changing room and the classroom. Thematic decorations on both sides of the board provides a framework picture gallery. On this type of board you can hang up to 28 pieces of A4 images.

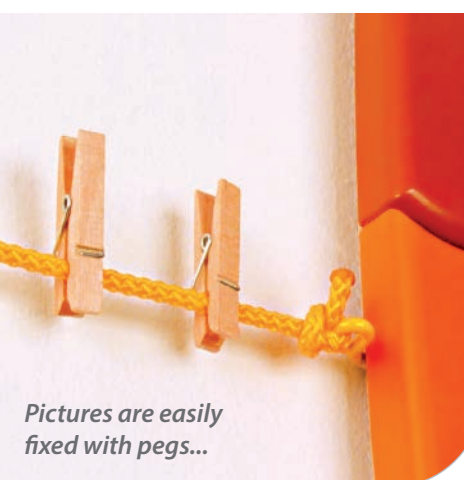

Types **D** and **E** are suitable for small rooms, the boards have narrow end anchors at one or both ends that precisely define the rope axis, but also leave more space for pictures.

On the following pages you will find the most popular pair of rope boards, individual components can be freely combined with each other and complement central or end anchors.

*Colorful bolts.  
Installation without the use of caps!*

*Solid and secure  
rope attachment...*

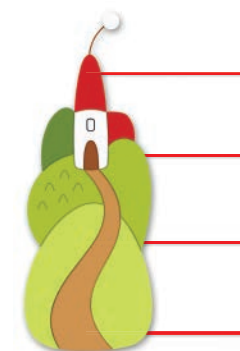

*Pictures are easily  
fixed with pegs...*

Would you like to use our rope boards as a decoration without ropes? If yes, it's very easy.

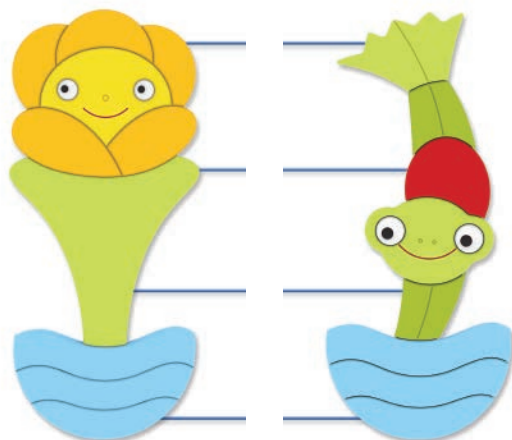

The first two digits of the code (20xxxxx) indicate that the product is a rope board. You can simply substitute the first two digits of the code (10xxxxx) and the product will then be a decoration without ropes and eyelets.

# Corkboards

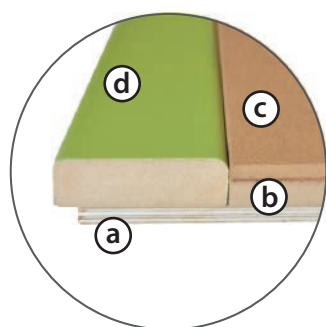

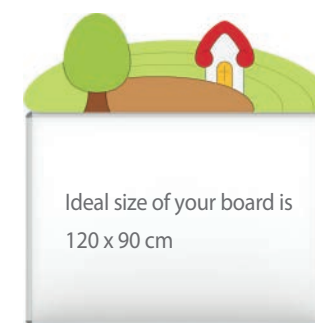

Ex. 21 15155 Countryside Corkboard

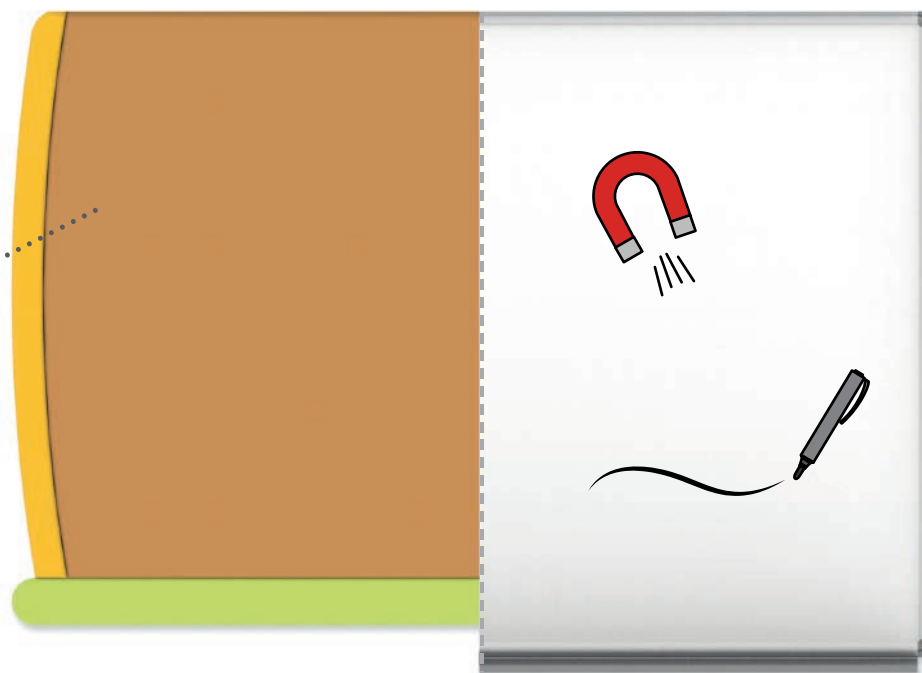

Ex. 10 15155 Countryside Decoration

### Cut of composition boards

- a) 6 mm plywood - substrate
- b) 10 mm MDF - substrate layer
- c) 6 mm soft cork - top layer
- d) 18 mm MDF - decorative frame

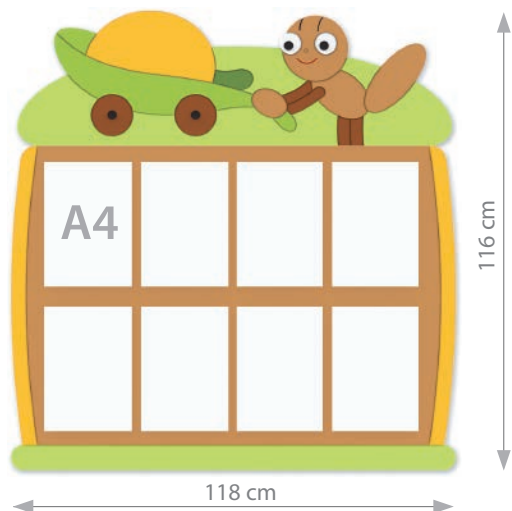

### Corkboards

Corkboards are used for displaying information and teaching materials and children's work. The coloured frame board helps thematically align the class, the change room or the entire ward. We use high quality grained cork with a thickness of 6 mm, which is soaked in linseed oil. Thanks to the material composition the boards are very strong and dimensionally stable.

### Decorations only

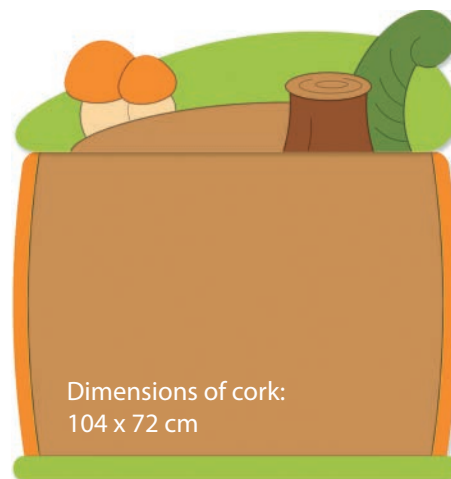

Would you like to use the top part of cork boards ONLY as a decoration without corkboard? If yes, it's very easy. The first two digits of the code (21xxxx) indicate that the product is corkboard. You can simply substitute the first two digits of the code (10xxxx) and the product will then be a decoration of the dimensions 118 x 38 cm without corkboard.

## Choose your notice board...

*Grained cork with a thickness of 6 mm, which is soaked in linseed oil*

### *How to choose the right board?*

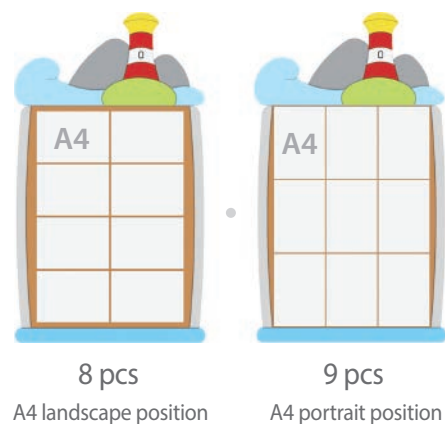

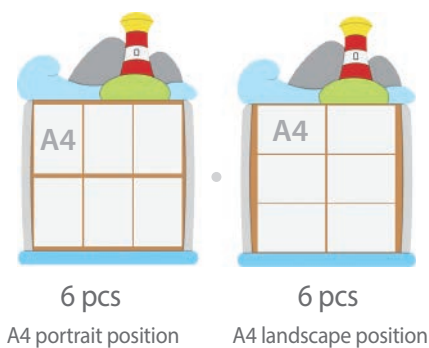

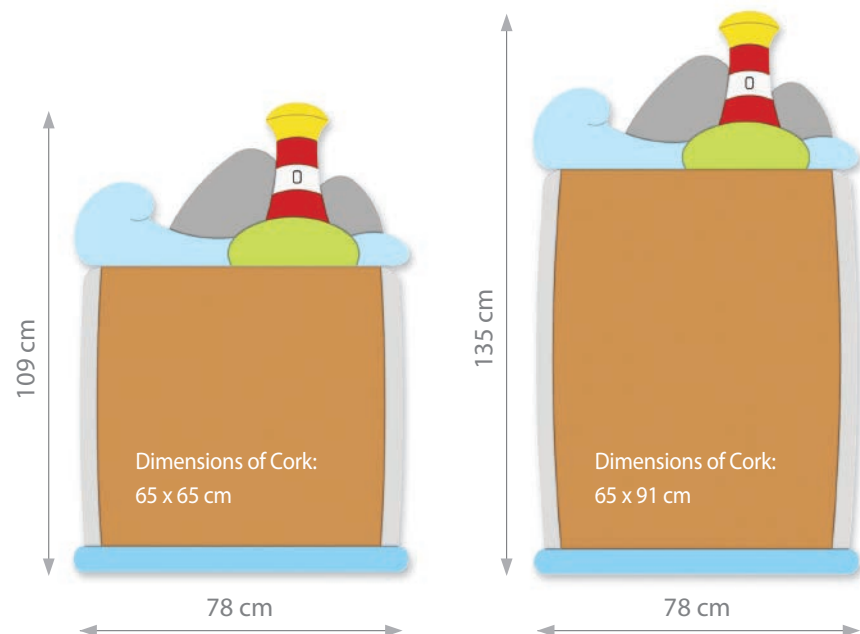

We have prepared a large selection of decorative tops for the notice boards, which are appropriately thematically accessories for different dimensions of LOKKI corkboards as well as your own current magnetic boards.

It's possible to choose the portrait or landscape formats according to the space available.

Notice boards are appropriate for hallways, changing rooms and classrooms.

You can find the entire dimensions of the boards on the following page.

## Corkboards (21xxxxx)

## Decorations only (10xxxxx)

Would you like to use the top part of cork boards ONLY as a decoration without corkboard?

If yes, it's very easy.

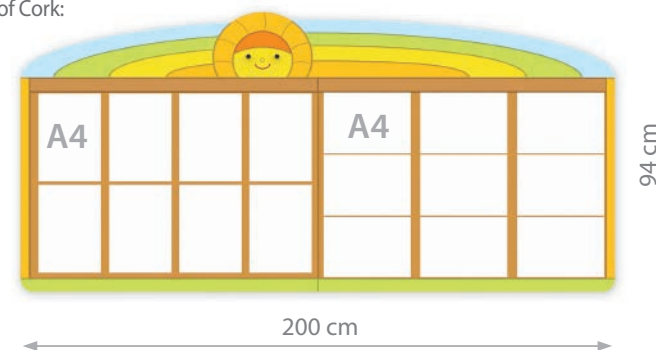

The first two digits of the code (21xxxxx) indicate that the product is corkboard.

You can simply substitute the first two digits of the code (10xxxxx) and the product will then be a decoration (of the dimensions 78 x 38 cm or 200 x 22 cm) without corkboard.

## Large format boards

Two strips – one for children's photos,  
second one for their names.

# Distinguishing system

4 kinds of motives - Basic, Animal, Fairy Tale, Favourite...

## Paper stickers

Each sheet contains thirty stickers with different distinguishing symbols. Sticker size: 3.7 x 3.7 cm, laminated glossy surface, 4 kinds of motives.

**Tip: Before applying the stickers the surfaces should be thoroughly cleaned and degreased with an alcohol cleaner. Stickers then stay on excellently and don't come off!**

## Plastic signs

A set of 30 pieces of self-adhesive plastic squares with different distinguishing symbols. Sign size: 3.7 x 3.7 x 0.15 cm  
Material: waterproof hard plastic that adheres very well to almost any cleaned surface.  
Colorfast printing.  
The signs stay fixed perfectly and even successfully withstand being peeled off.

## Wooden stamps

A set of 30 pieces wooden stamps in a sturdy wooden box. The stamps are made from solid beech with a high quality polymer block.  
Stamp size: 3 x 3 x 1.5 cm  
The stamps complement the range of distinguishing signs and help the younger children easily "sign" their pictures.

### Universal stickers

Universal stickers are appropriate for identifying cups and mugs (not for use on glass). These stickers are machine washable, they are water resistant and do not peel off.

They are easily applied, the instructions are a part of the packaging.

**First dishwasher cleaning is possible 10 hours after applying the sticker in order for the glue to completely dry!**

### Plastic discs with a hole

A set of 30 pieces of plastic discs with a hole, which are ideal for marking beds and bedding as an accessory to the resting board in the kindergarten, or on a string as a child's medal.

The diameter of the badge is 5 cm with a peg hole diameter of 1 cm.

Material: high quality hard plastic

VERY DURABLE

Real size of the sign.

37 mm

### Iron-on signs

Iron-on signs can be applied on any type of fabric, which can be ironed and has a fine structure. The signs are not suitable to be applied on hairy or roughly structured materials such as frotté, crepe etc. They are primarily designated for marking bedsheets, wall pockets and other textiles.

After the signs have been applied they are completely safe.

Ironed signs can be repeatedly washed with common laundry detergents at a temperature of 60°C.

# Play panels

## Interactive wall panels - Animals

Interactive wall panels in the theme of animals and sailors are ideal for all types of children's interiors. Even on smaller walls a set of panels can be created that will delight children and is a fun way to develop fine motor skills and sensory perception.

Dimensions of one panel: W 36 x H 55 cm

**3013206**  
Guido the Tomcat

## Interactive wall panels - Sailors

The panels can be combined according to the width of the wall, they work very well in combinations of three, five and a complete set of seven panels. On each panel a play element is attached for the development of fine motor skills and sensory perception.

The elements are made of durable materials and have a very long life. The panels are also suitable for unsupervised spaces.

(vertical)

For the **Small Mosaic** and the **Small Caterpillar** didactic toys in the size of 26 cm are applicable that can be found on pages 51-52. For the **Large Mosaic** and the **Large Caterpillar** the larger didactic toys in the size of 36 cm are suitable that can be found on pages 49-50.

Choose your own combination of shapes, colours and elements at [www.lokki.com](http://www.lokki.com)

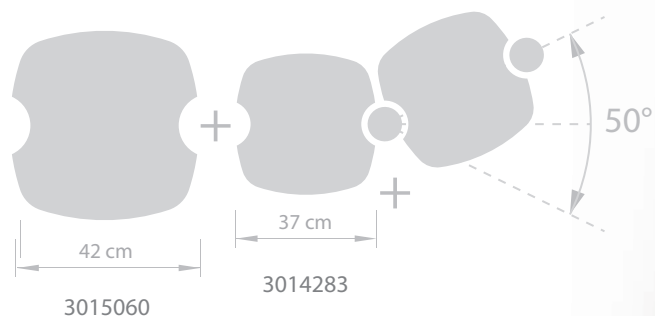

## Caterpillar Play panel

- Easy installation
- Can be fitted to different height levels according to the age of children
- Delivery includes anchoring material
- Designed for unsupervised spaces
- Certified play and didactic elements

**Large Caterpillar**

**Small Caterpillar**

You can mutually combine small and large types of caterpillar panels, which form an arbitrary range with all sizes of play elements.

## Play and didactic elements “Big”

For several years now we have owned the design, construction and manufacture of our play and didactic elements.

The main emphasis has been on the selection of materials and the thoughtful design, complemented by the original pictures of our artist Eva Sýkorová.

Wall elements that develop fine motor skills and sensory perception complement LOKKI corners, walls, play panels and can be installed separately. Thanks to the high quality of natural materials the products are very durable and long-lasting.

Certified according to EN 71.

## Play panels

The play panel is placed behind the examination bed to provide practical protection of the wall and play functionality. It is designed in 5 different themes and made in 2 pieces to allow for one longer flat position along the wall or to angle it in a corner position.

The play panels are designed in different lengths in order to fit various spaces. They are not only made for placing behind examination beds but also behind current changing tables.

## Lokki changing tables

It makes a lot of sense to place decorations, play panels for examination beds and non-traditional changing tables in the offices of pediatricians. Children will be distracted and relaxed in a colourful environment and cooperate better with the medical staff during the examination. Many patients at home still remember how they had fun playing in the surgery and look forward to the next visit.

## Corners

## Play Table Africa

Play table is suitable for all types of interiors, offers lots of fun in a small space. On the table are placed didactic toys which develop fine motor skills, patience and concentration.

It's possible to choose from four colour versions for the front and the back side (yellow, green, orange, blue).

The table is sent unmounted.

## Drawing Corner

Our goal is to create a pleasant atmosphere for children in unfamiliar surroundings that distract their attention from the expected examinations or treatment. Thanks to the drawing table, play house and interactive boards, little patients and their parents spend time in the waiting room in a relaxed atmosphere without undue stress. The drawing corner is also suitable for smaller spaces. Compact parts shape the tabletop and two fixed benches.

## Play House

You don't have a free wall? It doesn't matter, we have a solution for you. The play house is the ideal location for the center of the waiting area which can be accessed from all sides. On the external and internal walls are fastened play and educational elements that develop fine motor skills, sensory perception and a child's imagination. The decoration corners are themed according to customer requirements. The elements are silent, rigidly mounted and also suitable for unsupervised areas.

Charles the Spider  
W 56 cm x H 53 cm

## Life on the meadow...

## *Inspired by nature...*

We have fresh designs inspired by natural elements, which are implemented in areas for older children and adults. The decorations can be combined with artistic photos of nature.
